Subject: Request for Two Complete Copies of Large Mining Operations, Red Emerald Inc., Red Emerald Mine, M/001/058, Beaver County, Utah

Dear Mr. Turner:

As requested in the Division's May 10, 2005, two copies of the final approved plan are required prior to final approval of the Red Emerald large mine permit. The certificate of deposit in the amount of \$55,200 issued by Wells Fargo and the completed reclamation contract are approved, completing the reclamation surety requirement. The Division has one copy of the plan with redlined updates, but need two final collated pages for insertion into this plan. Both copies in their final form, will be stamped approved and one returned to you along with your signed and executed Reclamation Contract.

Enclosed at this time is your supercede Transitional Reclamation Contract. If in the future, you wish to modify your mining and reclamation plan, please furnish a redlined and strikeout version of the page(s) you wish to change and indicate how these are to be incorporated into the current approved plan using Form MR-REV-att, which is located on the web at [www.dogm.utah.gov](http://www.dogm.utah.gov). When the changes reach final approval, a clean version of the pages will need to be submitted for incorporation into the approved plan.

Thank you for your help and patience in finalizing this permitting action. Please call me if you have any questions in this regard.

Sincerely,

Susan M. White  
Mining Program Coordinator  
Minerals Regulatory Program
